Better Feeling Over Foreign News Gives Tone to Early Market, But Sags Later.

Sallure of the syst demand to hold up and the weatherst technical condition of the affair helpaps belied bring about the setback, which a while before the chops extended to levels moderately below hast might's finals. Trading was fairly active and sentiment apparently pretty well divided, but nobody disposed to do much.

Livarpool was due to come 22 to 25 points to the bad, but failed to make full response. It was assumed that the trend of events in Paris was more encouraging, for there seemed to be some progress in reaching agreement as to certain things that have threatened to bring dissectsion among the cheente allies and thus defer signing of peace and an early return to husiness readjustment. Phissis in the foreign market were steady and from 2 points up to its down. Spots were marked off 22 points to 17.88d for good midding, with sales 4000 bales, including 5.600 American. Receipts for the day were ill,000 bales, all American.

In the eastern belt conditions were favorable enough, but colder was promised the central and eastern belt, which meant further delay to seeding operations, while the rains have interrupted plowing. However, the trade accepted and the price dropped to 24.50c in a short while. But support was forth-coming, encouraged by the news from Paris, and the option worked up to 24.51c. There was no snap in spot demand and buying power resemed to subside without any apparent reason, resulting in a gradual sagging tendency, which reached about a half cent from

NEW ORLEANS, April 10.—Bad weather in the beit put the price of cotton 21 to 28 points up around the opening today, but the market immediately met heavy offerings from both sides, longs fiquidating and bearish traders selling, the latter being influenced by unfavorable yiews regarding the political situation. At the end of the first half hour of business prices were 5 to 18 points under yesterday's close.

Pressure to sell abated at the middle of the morning, following the forecast of more unfavorable weather for the cotton region, and toward noon the active months were 15 to 20 points over yesterday's fibal prices.

A dull and rather easy feeling developed. At 1 o'clock the trading months were unchanged to 26 points down, compared with yesterday's close.

GRAIN MARKETS

Light Purchases Overnight En- Motor Shares and Allied Specourage Strength in Corn, But Sag Follows.

CHICAGO, April 10.-Nearby delly eries of corn showed comparative firmness today owing to the fact that overnight purchases to arrive were small,
inasmuch as yesterday's break in prices
had carried the market below a level at
which \$1.50 per bushel at loading
stations could be paid. Sentiment, howover, remained bearish and the September option was under noticeable selling
pressure. Opening prices, which ranged
from ac off to ac advance, were follewed by a moderate sag all around, and
then something of a rally.

Later the market displayed more
pronounced weekness in consequence
of renswed competition from Argentina. Prices closed unsettled, 2%c net loweer to be advance, with May \$1.56% to
\$1.56% and July \$1.49 to \$1.49%.

Adverse weather for seeding tended to
steady oats. After opening unchanged
to \$2c higher, with May \$7.8574c, the
market held within narrow limits.

Provisions lacked support. Hearish
sentiment as to hogs and corn was responsible.

NEW YORK. April 10.—Motor shares and aliled specialties overshadowed all other issues at the opening of today's stock market. General Motors, Stuiz, Chandler and Kelly-Springfield rising I to 3's points. Pronounced strength was shown by various findustrials, equipments and specialties, particularly Industrial Alcohol, American International Corporation, Baldwig, Locomotive and Midwale Steel. Olls were irregular, also shippings and tobaccos. U. S. Steel was barely stendy at the outset, but strengthened later.

Steel shares were included among the strong features at midday, despite the considerable decrease in unfilled tonnage reported by the United States Steel corporation for March. American International corporation broke & points from its best on announcement that the directors would call the remaining 40 per cent due on the stock.

United States Steel's rise to 100%, the year's highest price, and its subsequent reaction of more than two points reflected the erratic course of the general list in the final hour. The closing was irregular.

losing was irregular.
